

Manish Kumawat

Data Science & Machine Learning Enthusiast — B.Sc. Student
+91 9399274676 — [Gmail](#) — [GitHub](#) — [LinkedIn](#) — Bangalore, India

Professional Summary

Data Science enthusiast skilled in Python, Machine Learning, FastAPI, Flask, and Streamlit with hands-on experience in data analysis, model deployment, MLOps, and building real-time ML applications using modern tools and cloud technologies.

Technical Skills

- **Programming** : Python, SQL
- **Libraries & Framework** : Pandas, NumPy, Scikit-Learn , Pytorch , Flask
- **MLOps & System** : MLflow , DVC , CI/CD , Dagshub
- **Cloud** : AWS , Docker , FastAPI
- **Database** : MySQL, PostgreSQL
- **Tools** : Jupyter Notebook, Git , VS Code, Excel , Power BI

Work Experience

Data Science Intern

Mar 2026 – Apr 2026

Airsme Technology Private Limited (On - Site)

- Developed a Smartphone Addiction Detection System using Python, Streamlit, and FastAPI.
- Built ML pipelines and deployed real-time prediction APIs for addiction level classification.

Education

BSc in Computer Science & Mathematics

2023 - 2026

Acharya Institute of Graduate Studies , Bangalore
CGPA: 8.6

Projects

Smartphone Addiction Prediction & Behavioral Analytics System

[GitHub](#)

- Built a smartphone addiction prediction system using machine learning and behavioral analytics.
- Engineered features and trained an XGBoost model achieving ~85% accuracy and ~83% Macro-F1 score. .
- Developed real-time prediction APIs and interactive dashboards using FastAPI and Streamlit.

Walmart Sales Analysis (SQL Project)

[GitHub](#)

- Designed and managed a MySQL database with 1000+ rows of transactional sales data.
- Developed complex SQL queries to uncover sales trends and product performance..
- Enhanced query performance with joins and indexing, enabling efficient analysis of large datasets.

Intelligent Resume Screening Tool

[GitHub](#)

- Built a resume screening system to extract skills, experience, and qualifications from resumes.
- Developed an ML-based matching pipeline to rank candidates against job descriptions.
- Applied NLP using spaCy and scoring models with Scikit-learn for resume analysis.

Certifications

- IBM Data Science Professional Certificate
